

EMS Mission and Belief Statements

The mission of Brownsburg East Middle School is to provide opportunities for adolescent students in a safe environment to develop their potentials academically, physically, emotionally, socially, and morally in order to function as productive members of our changing society.

We believe:

...in offering stability and guidance to our students as they develop and maintain their identity.

...students should exemplify moral integrity and respect for others.

...students should develop a balance between independent thinking skills and the ability to work well with others.

...in instilling self-respect in our students as well as cultural respect and tolerance among our students in the global community.

...in establishing a sense of responsibility in our students.

...in challenging our students to set high goals.

...in equipping our students with a foundation for success by emphasizing organizational skills, a strong sense of work ethic and goal-seeking ideals.

...in working with parents and our community in inspiring students to become life-long learners.
