

20/20+

En Vision

A Community Discussion on the Future of Education in Brownsburg

Dear Commission Members:

We spent a lot of time in our first commission meeting talking about school budgets and revenue loss, because that sets the context for the work the commission is doing. However, the Envision 20/20+ goal is “a discussion of the future of education in Brownsburg.”

In our next meeting, we'll get to the part that's more fun. We will spend about half of our second meeting in small groups discussing what constituents truly value about how your schools operate now and what you envision your schools being like 10 years from now. I'm sure you've already given some thought to those topics, so please bring your ideas to share.

The remainder of the meeting will be devoted to planning for the end product (final report) and for the first community conversation meeting on March 23.

At the end of the meeting, if Commission members feel fully prepared for the March 23 community conversation meeting, we will not need the additional commission meeting tentatively set for March 16. If Commission members feel we need the additional preparation, we'll confirm the March 16 meeting.

I look forward to seeing you on Tuesday, March 9, 2010 at 6:30 p.m. in the White Lick Elementary School Cafeteria.

Marilyn Shank
Facilitator
